

January 10-13, 2021

9:00am – 12:00pm

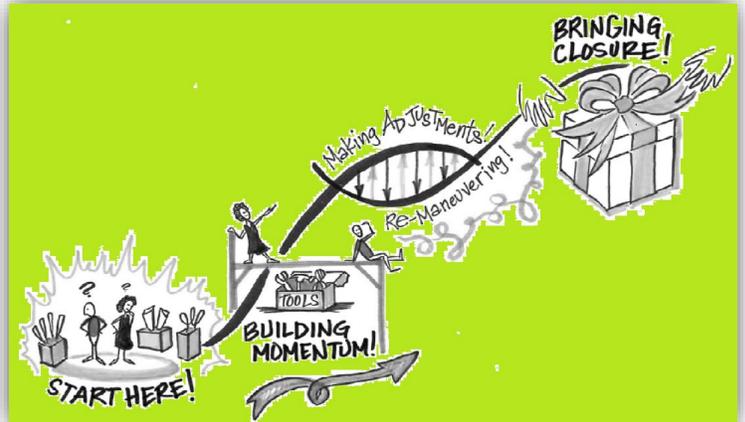

You created an inspiring vision and a great plan...

Now how do you get it DONE?

This course offers a rich toolkit to keep plans and projects alive, relevant, and achievable during implementation.

This course anticipates the fact that all plans need adjustments during implementation and provides a road map to do so.

Participants will learn ways to keep plans and projects alive, relevant, and achievable.

[REGISTER HERE](#)

YOU WILL LEAVE THIS COURSE WITH:

- ✦ A better understanding of the journey a group takes to implement its plans
- ✦ Greater ability to recognize where a group is going and what will help it move ahead
- ✦ Tools to integrate new leadership, partners, and collaboration from multiple sectors
- ✦ Skills to assess change motivation and ability factors so that initiatives are successful
- ✦ Ways to set a group up for success in implementing its plan

This training was engaging, enjoyable and invaluable. I was learning the whole time, but it did not feel like work. It was so much fun. I also really enjoyed the breakout rooms. It was great to hear what other people are doing in other areas through CFHL, especially during this unprecedented time of COVID.

I enjoyed learning and addressing hard situations that are difficult to get through. I felt I left the training with the KEYS to unlock the doors that have been closed for productivity. Thank you for giving such a purpose driving training that is designed to assist the community and heal and direct the leaders.

WHO SHOULD ATTEND? ✦ Anyone involved in planning CalFresh Healthy Living or other coordinated work plans.
