7. Announcements (11:25-11:30)		
8. Adjournment		

Roadmap to a Healthier Douglas County: 2013-2018 Douglas County Community Health Plan

Strategy assigned to Healthy Food For All Work Group	Opportunities for Community Action	Outcomes / Objectives	Measures / Indicators related to strategy
<p>Enhance access to healthy food for low-income families</p>	<ol style="list-style-type: none"> 1. Establish waste minimizing practices and policies with supermarkets, restaurants, cafeterias, schools, hospitals and any other large feeding institutions, restaurants and stores by supplying excess to food banks serving Douglas County (for low-income families) 2. Implement a choice-based system with whole foods incentivized in local food banks/ pantries and assure availability of healthy food choices 3. Establish satellite food pantry locations to provide access to whole foods for low-income families 4. Establish a system that engages low-income families as food growers and small business operators 5. Enhance the capacity of the food system to handle large-scale donations (e.g., storage, transportation) 6. Establish new opportunities to purchase fresh produce in North Lawrence and other parts of Douglas County with limited options, including farmer's markets, integration into existing retail options, or opening corner stores 7. Implement environmental changes (e.g., moving bus stops closer) that make access to local food banks/ pantries and farmers' markets easier 8. Establish case management and outreach enrollment at local food pantries and schools that links and enrolls people to SNAP and food stamps programs 	<ol style="list-style-type: none"> a. By 2018, increase by 10% the availability of fruits and vegetables in food deserts through retail, gardens, and food banks. b. By 2018, increase by 5% participation in SNAP/ food stamps. 	<ol style="list-style-type: none"> i. Number of opportunities to purchase or obtain fruits and vegetables (Environmental Observation) ii. Number of people participating in SNAP/ food stamps (USDA Food and Nutrition Resources)

Healthy Food For All Work Group 2014 Assessment of Opportunities for Access to Healthy Food for Low-Income Families

The LiveWell Healthy Food For All work group assessed the implementation of the Access to Healthy Food for Low-Income Families strategy, part of the Access to Healthy Foods goal of the 2013 Douglas County Community Health Plan. The assessment was an effort by the University of Kansas Work Group for Community Health and Development and the Lawrence-Douglas County Health Department to assist in action prioritization for the upcoming year. To this end, an online survey was administered to the Healthy Food For All work group to gather ratings on each member’s satisfaction with the implementation of the strategy over the past year, the importance of implementation of the strategy in the upcoming year, the feasibility of implementation in the upcoming year, and the member’s likelihood of contributing to implementation during the upcoming year. The survey was designed as a starting point for discussion on the current and future implementation of the eight opportunities for community action specified in the 2013 Douglas County Community Health Plan for the Access to Healthy Food for Low-Income Families strategy (Access to Healthy Foods, Strategy 4).

The open survey received responses from October 6, 2014 until October 21, 2014, during which time 12 of the 28 members (42.9%) of the LiveWell Healthy Food For All work group answered the survey. Of these, 11 respondents listed how long they had been involved with the work group and 12 answered how many meetings they attended.

- 9 respondents had been part of the work group for *more than one year*
- 2 respondents had been part of the work group for *less than one year*
- 50% of respondents attended most of the meetings
- 25% of respondents attended all of the meetings
- 25% of respondents attended a few of the meetings

The Healthy Food For All work group responded to a 5-point rating scale rating their satisfaction with the implementation of each of the opportunities for community action, which are listed in the stacked bar chart below in order of satisfaction indicated.

The Healthy Food For All work group members were asked think about the year ahead and rate the following dimensions on a 5-point scale for each of the opportunities for community change: importance of the implementation of the strategy, the feasibility of implementation of the strategy, and the likelihood that the respondent would contribute to the implementation of the strategy. The following table of stacked bar charts summarizes the results for each of the eight opportunities, which are listed in order of indicated importance.

Legend

- Very important, Very feasible, or Very likely
- Important, Feasible, or Likely
- Somewhat important, Somewhat feasible, or Somewhat likely
- A little important, A little feasible, or A little likely
- Not important, Not feasible, or Not likely

Opportunity for community change	Percent rating on a 5-point scale, n = 11	
Establish new places to purchase fresh produce in areas with limited options	Importance of implementation	
	Feasibility of implementation	
	Likelihood of contribution	
Implement a choice-based system with whole foods in local food banks/ pantries	Importance of implementation	
	Feasibility of implementation	
	Likelihood of contribution	
Establish satellite food pantry locations to provide access to whole foods	Importance of implementation	
	Feasibility of implementation	
	Likelihood of contribution	
Establish new sites for enrollment in SNAP & food stamp programs	Importance of implementation	
	Feasibility of implementation	
	Likelihood of contribution
